- Having Knowledge in SSIS and SSRS configuration and migration of packages and migration reports.
- Good experience in up gradation and migration activities.

TECHNICAL COMPETENCIES

Databases	:	SQL Server 2008R2/2012/2014/2017/2019
OS	:	Windows 2012/2016
Tools	:	Solar winds, Service now, Rubrik, Science Logic

HIGHEST QUALIFICATION

- B. Tech in Mechanical Engineering from
- Jyothishmathi Institute of Technology and Science with 68.78% of aggregate through JNTUH, Telangana.
- Intermediate (Mathematics, Physics, Chemistry) from Sri Chaitanya Junior College with
- 90.2% of aggregate through Board of Intermediate, Telangana.
- S.S.C from Kerala E/M High School with 90% of aggregate through Secondary School of Education, Telangana.

PROFESSIONAL EXPERIENCE

- Worked as Database Administrator in **HEXWARE**, Hyderabad from Nov 2019 to October 2023.
- Working as a Database Administrator in **Integrated Cleanroom Tech Private Limited**, Hyderabad from October 2023 to till date.

PROJECTS

Project 1

Company	:	Integrated Cleanroom Tech Private Limited
Duration	:	October 2023 to till date
Team Size	:	8
Environment	:	SQL Server 2017, 2014, 2012, 2008R2, Service Now, Science Logic.

HCA Healthcare is an American for-profit operator of health care facilities that was founded in 1968. It is based in Nashville, Tennessee and, as of May 2020, owns and operates 186 hospitals and approximately 2,000 sites of care, including surgery centers, freestanding emergency rooms, urgent care centers and physician clinics in 21 states and the United Kingdom. By conducting large-scale clinical research with partners including the Harvard Pilgrim Institute and the CDC, and using data gathered from their patients.

Responsibilities:

- Worked on different versions of SQL Server and installation and patching SQL Server.
- Setting up and Monitored Transactional replication, Database mirroring on Production, Development servers.
- Extensively worked on Dynamic Management Views (DMV's) and DBCC commands.
- Implementation of logins and users Permission, Roles and Authentication Modes as a part of Security Policies for various categories of users.
- Created Database Maintenance Planner for the Performance of SQL Server which covers Database Integrity Checks.
- Planned the Complete Backing up of Database and Restoring the Database from Disaster Recovery.
- Implemented log shipping for synchronization of database.
- Monitoring SQL server performance using profiler to find performance and deadlocks.
- Execution of DBCC Commands (OPENTRAN (DBName) , SQLPERF (LOGSPACE) , checkdb , shrinkfile , shrinkdatabase , indexdefrag , dbreindex, etc.)
- Knowledge of High Availability (HA) and Disaster Recovery (DR) options for SQL Server
- Index, Views and Store Procedures Optimization.
- Patching and Upgrading SQLServer in standalone and cluster environment.
- Good experience in configuring always on and maintenance.

PROJECT2

Title : MARKET AMERICA, USA
 Company : HEXAWARE
 Environment : SQL Server 2017, 2014, 2012, 2008R2, Service Now, Splunk.
 Duration : Nov 2019 to October 2023
 Team Size : 12

Description: - Market America is one of the largest online retailers for consumers worldwide, featuring exclusive products and services, along with more than 3,000 partner stores. Together, Market America offers over 50 million products and services. Our proprietary business model combines the power and scope of the Internet with the personalization of One-to-One Marketing to sell products and services. Market America utilizes comparison shopping, customer reviews, live chat assistance and a state-of-the-art search engine powered by Microsoft.
